

CO[NN]ACTION ZAATARI

URBAN STRUCTURE | SAFE CONNECTIONS | OCCUPATION

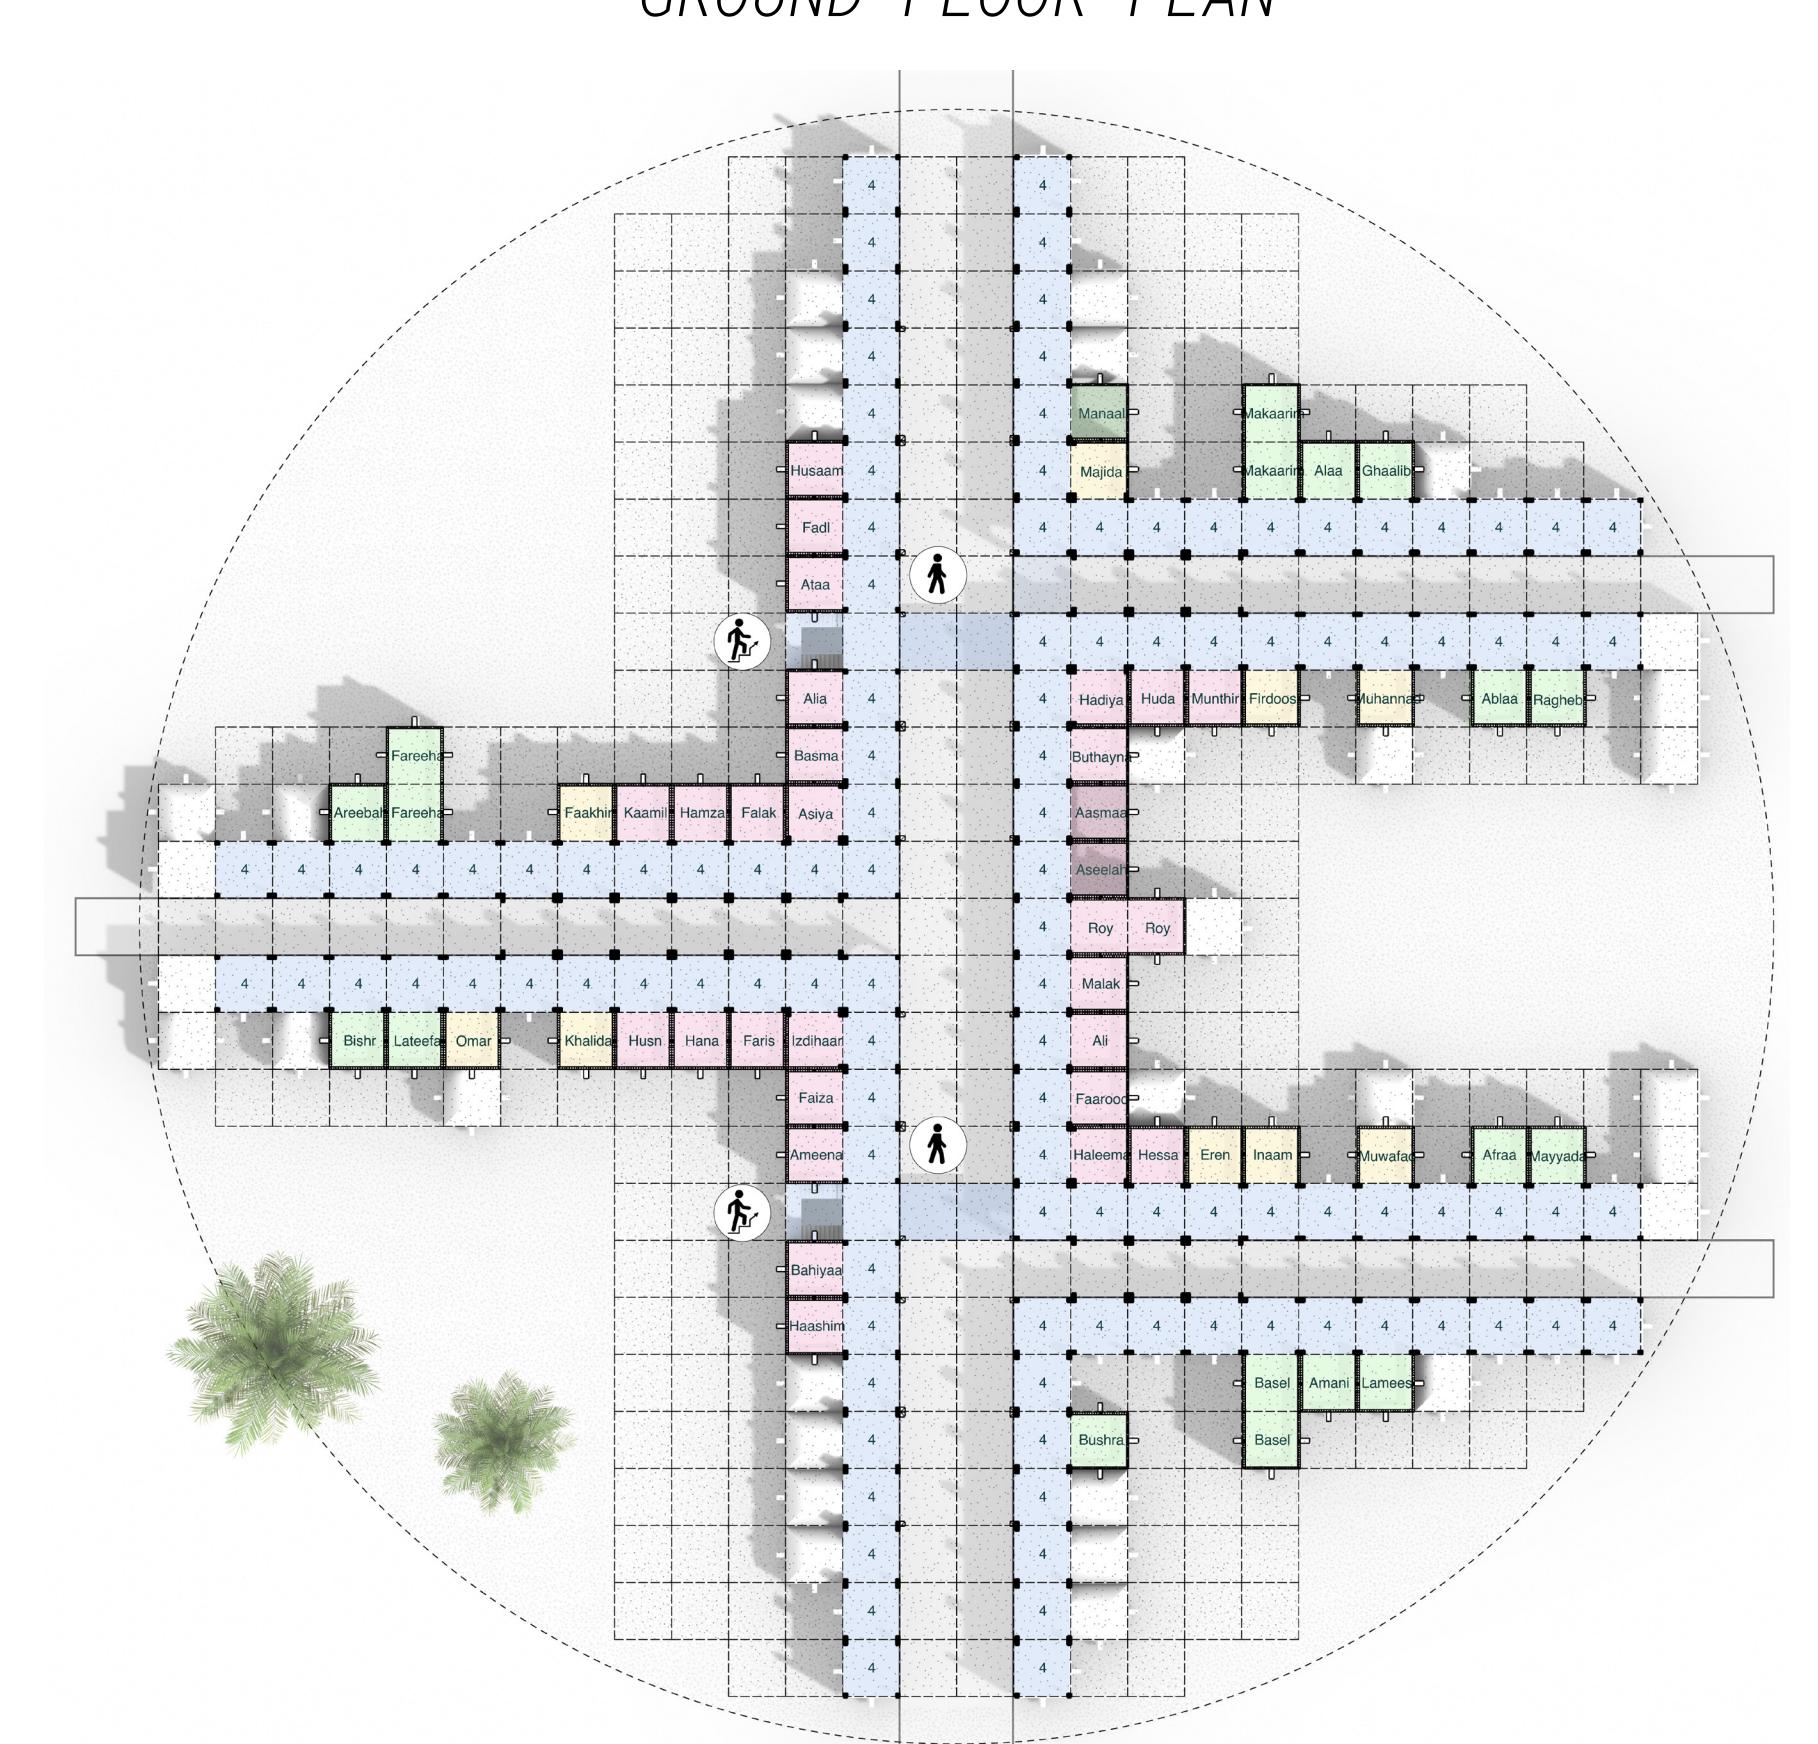

CO[NN]ACTION ZAATARI IS A PROPOSAL FOR THE SUSTAINABLE REDEVELOPMENT OF ZAATARI REFUGEE CAMP. IT AIMS TO LINK THE DISCONNECTED CLUSTER OF FUNCTIONS TOGETHER BY CREATING SAFE AND INCLUSIVE PATHS FOR EVERYONE. THIS CONNECTION - IN THE FORM OF A BAZAAR AT THE INTERSECTION NODES BETWEEN THE CLUSTERS - IS FORMULATED FROM THE COLLECTIVE REQUESTS OF THE INHABITANTS. A GENERATIVE CONFIGURATION ALGORITHM ALLOCATES THEIR REQUESTS TO A SUITABLE LOCATION, THEREBY ALLOWING THE EXCHANGE OF SKILLS AND ACTIVITY TO FLOURISH WITHIN THE CAMP.
